

OUR SUCCESS IS MEASURED IN FEET

FOOTWEAR COLLECTION

We understand that everyone requires different safety features. We understand that comfort and protection is paramount and you want durability that exceeds expectations. Our footwear is at the forefront of the safety industry, not just because of all of our safety features, but because it draws a line between those who have our footwear and those who don't.

GO
XTRA
WIDE

DO YOU FIND IT HARD TO FIND THE RIGHT FIT FOR YOUR FEET?

It's a common problem when your feet don't conform to a standard width. Often the only solution is to wear boots 1 or 2 sizes too large to accommodate wider feet. However, this creates a range of health and safety issues. An oversized boot is a potential trip hazard which may lead to injury or worse. We believe your work boots should work for you. That's why we've developed a range of wider fitting Bison XT boots to ensure your work days remain extra comfortable, extra productive and above all safe.

BISON XT ZIP LACE UP SAFETY BOOT

Code XTZ-100 / **Colour** Black / **Standard Sizes:** 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 & 14 / **Extra Wide Last Sizes:** 8W, 9W, 10W, 11W

Wide and Extra-wide fit options minimise excess toe space trip hazard and eliminate rub-zones / **1. Spacious toe cap for greater toe protection** / NZ Tasman Pro-Tec water resistant leather upper / Foot-bed cushioning and ventilation / Seamless heel inner and forefoot breadth / **2. Ergonomics - rocker bottom** sole design aids forward motion and reduces wearer fatigue / Athletic arch and molded heel support / Superior compression and abrasion resistance / **3. Bison Grip nitrile rubber sole with multi-directional tread pattern reduces slips** / Nitrile rubber outsole offers extreme protection up to 300°C / Tough laces - toughest 5mm Nylon DTY laces used so they'll last as long as your boots.

EXTRA-WIDE

FIT

FOR THE BROAD FOOT

We created a comfortable, broad last shape to enable wearers with broader feet to reduce their standard boot size (length), eliminating the permanent 8mm toe trip hazard for each size reduction. This also means greater comfort, with a lighter boot and increased toe cap protection.

DELIVERS MAXIMUM

GRIP

ON ALL SURFACES

We formulated a Bison Grip nitrile rubber sole, with a multi-directional tread pattern, that is more grippy than any other boot we tested in both wet and dry conditions. Plus we added a rocker heel and toe, and a forward pitch, reducing heel strike slip risk, and further reducing wearer fatigue.

ENHANCED LONG-TERM WEARER

COMFORT

CUSHIONING

We've added a state of the art footbed with athletic arch support, compression resilient cushioning and an innovative use of channels and holes to enhance air circulation around the foot.

NEW
ARRIVAL

BISON XT SAFETY BOOT

Ankle Zip Lace Up

Code: XTLZ-101 / **Colour** Wheat
Standard Sizes: 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 & 14

WORK BOOT STRENGTH

CASUAL SHOE FIT

BISON XT SAFETY BOOT

Zip Lace Up

What am I best used for?

Pretty much every single job apart from working in the meatworks (unless you work in the chillers). Keeping the NZ economy going - I use NZ leather. Great for tradies - The zip side means I'm easy to get on and off and we put a good zip to make sure it lasts.

What makes me good?

Fit - I am built for New Zealander's and designed by New Zealander's.

Grip - I have the highest slip resistance a boot can get and the design of my sole means I can grip on almost any surface; mud, gravel, clay you name it I love it! I'm built for NZ industries.

Comfort - I have a great fit, and with my soft, self breathing innersole I am also very comfortable.

BISON GRIZZLY SAFETY BOOT

Slip On

Code BISON10SBP / **Colour** Black / **Sizes** 5-12

Standard SBP with anti-penetration midsole, complies to ISO 20345:2004 International Safety Standards, AS/NZS 2210.3 Standard S1P and SRB rated for slip resistance / Diamond tread ladder grip to increase stability while climbing / Safe low-profile scuff-cap / Steel toe cap / AS/NZS 2210.3:2009.
