

Plana

Pallet Wrapping Machine

An international award winner, the **Omni Plana Pallet Wrapper** has the lowest and most innovative turntable in the world, **only 18mm high**. This machine has a 270° access ring to the turntable allowing pallet truck loading to be strain free. This 20cm wide access ring has space saving advantages as well, eliminating the need to have 3m long steep inclined ramps on standard pallet wrappers. Our Omni Machines have a unique power pre stretch system that allows stretch yields to over 400% to reduce film usage as well as an automatic cut off option for fast pace operations.
